## MONDAY (14.10.)

### Workshops (16:30-17:30 – parallel)

1) **"Android ecosystem: Powering the Future of Payments"** – Tatjana Novak, Igor Szpirin (Transaction Systems) *Small hall 1*

In August 2016, Transaction Systems' office in Budapest received the first sample of an Android based POS device. Until now the company has sold more than 50 000 units of Android based POSes, and has more than ten different models in production. Sales have been growing significantly... What are those devices and what is the ecosystem that turns the standard POS into a powerful business instrument? How do we change our approach in order to utilize the possibilities provided by the Android based POS? Visit the workshop of Transaction Systems at SmartCard Conference, and you will get an insight of the company's experience in Android based POS projects, showcasing the Android POS ecosystem in detail, get responses to your questions, and feel the future of e-Payments in your hands.

2) **"Digital transformation of companies from a technological, regulatory and organizational point of view"** – Robert Ilijaš (Identity Consortium) *Small hall 2*

- INTRODUCTION - generally about digital transformation and the role of digital identity in the transformation process
- CURRENT SITUATION - practical examples of real processes (banking, transport) and the role of digital identity in them
- THE NEED TO CHANGE - the negative consequences of existing analog processes
- SOLUTION ELEMENTS - The individual mechanisms and technologies needed to build digital identity and digital transformation
- RE-DESIGNED PROCESSES - Redesigned processes through the use of digital identity
- CONCLUSION - the impact of digital identity on society as a whole

### Evening program 20:00 – Printec
